

Current concepts of interdisciplinary orthodontic-periodontic treatment

Date/Place

Friday, September 23, 2016, 09.00–17.00 h

School of Dental Medicine, André Schroeder Auditorium, Freiburgstrasse 7, 3010 Bern

Speakers

Prof. Dr. Christos Katsaros, Dept. of Orthodontics and Dentofacial Orthopedics, **zmk bern**, University of Bern (course director)

Prof. Dr. Anton Sculean, Dept. of Periodontology, **zmk bern**, University of Bern (course director)

PD Dr. Frank Weiland, Dept. of Orthodontics, University of Vienna

PD Dr. Gernot Wimmer, Dept. of Prosthodontics and Periodontology, University of Graz

Course objectives

This course addresses orthodontists, periodontists and general dentists who intend to learn more about the current concepts of orthodontic/periodontic interdisciplinary treatment.

Orthodontic tooth movement implies adaptation of the periodontal tissues. Orthodontic treatment may thereby support periodontal treatment but can also aggravate the periodontal situation, in case of uncontrolled tooth movement combined with an inflamed periodontium. Today a large number of adult patients is seeking orthodontic treatment. To achieve the best possible treatment to the individual patient, orthodontists, periodontists and general dentists need to work in very close cooperation and thus must have a sound knowledge of physiologic and pathologic periodontal conditions and the possibilities of each specialty to influence them.

Topics

- The physiologic periodontium
- Inflammatory and non-inflammatory pathology
- Periodontal prerequisites for safe orthodontic treatment
- Rehabilitation of periodontal patients: periodontal and orthodontic implications
- Orthodontic tissue regeneration
- Periodontal tissue regeneration
- Orthodontic treatment and development of gingival recessions
- Predictable treatment of single and multiple gingival recessions

Course type

Theoretical course (total of 7 CE credit hours)

Language: English

Course fee (including: lunch and coffee breaks)

CHF 600.–

CHF 300.– for postgraduate students (only with confirmation of their University)

Certificate

Each participant will receive a certificate with 8 hours of CE credit.
