The American Student Dental Association recently presented its first ASDA Paragon Award to Dr. Arthur A. Dugoni, dean emeritus, professor of orthodontics and senior development executive at the University of the Pacific Arthur A. Dugoni Dental School. The ASDA Paragon Award recognizes advocacy on behalf of students, excellence in clinical practice, contributions to the lives of dental students, innovations in dental education and dedication to organized dentistry. Dr. Dugoni has been a speaker at many ASDA national meetings and a continuous supporter of programs that build future leaders within organized dentistry. In 2004, he became the first and only person in the United States or Canada to have a dental school named in his honor while holding the position of dean. Dr. Dugoni has held leadership positions in the American Dental Association, the American Dental Education Association, the American Association of Dental Schools, the World Dental Federation, the American Board of Orthodontics and the California Dental Association.

Dr. Monica L. Newby, who has orthodontic offices in Cincinnati and Dayton, OH, was honored during the 2011 Cincinnati YWCA “Career Women of Achievement” program. Dr. Newby was one of eight area women honored by the YWCA for business acumen, leadership and community service. Dr. Newby participates in the YWCA Rising Star Board Leadership Program and serves on the Board of the Children’s Dental Care Foundation.

The Department of Orthodontics and Dentofacial Orthopedics, University of Bern, Switzerland, recently presented the Paul Herren Award 2010 to Dr. Vincent G. Kokich. The presentation took place in Bern during a ceremony attended by 260 Swiss orthodontists. The Herren Award honors the late director of the Bern orthodontic program, Professor Paul Herren (1913-2008). The award is given annually to members of the orthodontic profession in recognition of outstanding teaching, clinical excellence, and orthodontic research. Dr. Kokich, who has been editor-in-chief of the AJO-DO since January of this year, is a professor of orthodontics at University of Washington School of Dentistry and has a private orthodontic practice in Tacoma. He has authored more than 20 book chapters and has written or contributed to 100 scientific articles published in orthodontic journals. He has given nearly 40 named lectures at orthodontic meetings. The award nomination noted that: “With his innovative clinical and research work (Dr. Kokich) has influenced the concept of interdisciplinary treatment in the esthetic zone determinitely.”
